

Basic Home Recording and Editing

Some links you can follow for more information about the topics covered in today's workshop. These links, as well as links to the slides used during the presentation and to this handout, are also available online at

<https://github.com/wplideamill/basic-home-recording> .

Software

Audacity - <http://www.audacityteam.org/>

Audacity help

There's a very good training video on the LyndaLibrary site, which you can connect to for free through our library's website. Check <http://guides.wpl.winnipeg.ca/lynda> for info. LyndaLibrary also features a number of videos about audio recording, mixing, and various other audio editing programs.

Internet Forums

These forums are oriented towards home recording and music production - they are often good places to ask questions about various recording products and recording techniques.
